PROFESSIONAL SUMMARY

Computer Science graduate looking to start my career as a Full Stack Developer. Have hands-on experience with React, Express.js, and MongoDB from my internship and personal projects. Strong foundation in problem-solving and building web applications. Eager to learn new technologies and contribute to impactful projects.

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: React, HTML5, CSS3, Redux
Backend: Node.js, Express.js, MongoDB, RESTful APIs, JWT, Mongoose
Tools: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | HostLelo March 2026 – Present

- Built responsive web applications using React and worked with APIs to fetch and display data
- Created UI components with React, HTML5, and CSS3, made sure they work on different browsers
- Used Redux to manage state in applications and improve performance
- Worked with REST APIs and integrated backend services to make applications work smoothly
- Used Git and GitHub to manage code and collaborate with team members

PROJECTS

FinLedger - Full-Stack Banking System React, Node.js, Express.js, MongoDB

- Built a full-stack banking system with multi-account support, deposits, withdrawals, and transfers
- Implemented JWT authentication with HTTP-only cookies, protected routes, and role-based access control
- Developed atomic account transfers with idempotency keys and a double-entry financial ledger
- Added immutable audit logs to track critical user actions and transaction activity
